

Dear all,

Countdown has started! A little over a month is left before we gather for the 32nd Annual EAU Congress in London. Our scientific programme is ready and we have some sessions that we wish to highlight in this newsletter. Register online before 6 March and avoid waiting at the Registration Desk on site. In addition read all about the White Paper on Prostate Cancer and find out how the EAU History Office is looking to strengthen its ties; so if you are a historian in urology we would love to hear from you!

EU White Paper on Prostate Cancer

One of the EAU priorities is to keep urology on the political agenda. That is why we put quite some effort in engaging with the EU and regulatory bodies by attending and organising meetings, lobbying and developing scientifically-based content to convince political influencers of the importance of improving urological care throughout Europe.

One of the activities that we have recently conducted is the development of a White Paper on Prostate Cancer. This White Paper, which was developed with the help of medical experts, researchers, patient group representatives and politicians, describes the current situation of Prostate Cancer in the EU, risks and diagnosis of the disease, different developments in treatment, the role of the EAU and concludes with some recommendation for the EU to take action. The full white paper can be reviewed at http://uroweb.org/wp-content/uploads/EAU_WhitePaper_PCa_final.pdf

In the coming months, EU policymakers will be contacted to see what next steps are to be taken. During the next European Day of Prostate Cancer Awareness (EPAD) on 27 September we hope to present a plan of action with EU-wide programmes to raise awareness and to decrease the risks and mortality rate of PCa.

EAU17 | LONDON
24-28 March 2017
Cutting-edge Science at Europe's largest Urology Congress

Last chance to register!

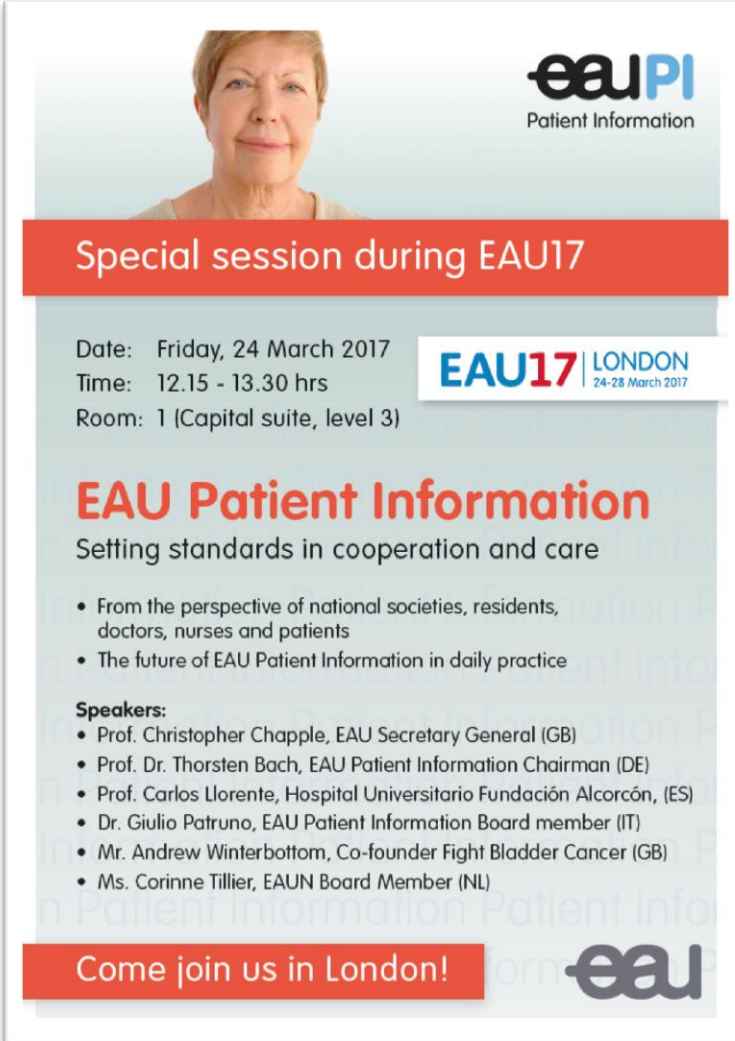

Haven't registered yet for EAU17 in London? Check out the [extensive EAU17 preview](#) with inside tips by the experts. You can still have until 6 March to [register online](#).

[The EAU History Office is looking for international collaborators](#)

The EAU History Office wants to strengthen its ties with the different national societies. We are aware that several national societies have their own history offices or at least members who are actively involved in collecting and documenting the history of urology. Many of these urologists are already members of the EAU History Office or otherwise affiliated, but we are looking to expand our collaboration with new historians of urology.

If you are interested, please send your contact details to [Mr. Loek Keizer](#) at the EAU Central Office on behalf of History Office Chairman Prof. Philip Van Kerrebroeck. If you are attending EAU17 in London, please also consider coming to the [History Office's Special Session](#) on Saturday and introduce yourself personally!

Special session EAU Patient Information at EAU17

Special session during EAU17

Date: Friday, 24 March 2017
Time: 12.15 - 13.30 hrs
Room: 1 (Capital suite, level 3)

EAU17 LONDON
24-28 March 2017

- Dr. Giulio Patrino, EAU Patient Information Board member (IT)
- Mr. Andrew Winterbottom, Co-founder Fight Bladder Cancer (GB)
- Ms. Corinne Tillier, EAUN Board Member (NL)

Come join us in London!

Like, share, follow EAU17 via social media

The Annual EAU Congress is one of the most advancing medical congresses in the use of social media. Follow the official EAU account [@uroweb](#) on Twitter for the latest updates on #EAU17 and share your thoughts to the urological community. Photos can be posted and reviewed at the [EAUpage](#) on Facebook or via [@uroweb](#) on Instagram.

Are you new to all this social media mumbo-jumbo? There will be a social media helpdesk and several ESU workshops in London, where you can pop by for any question related to social media you might have. More information can be found [here](#).
